

# CHINA BUSINESS CIRCLES

Your international community in China

**CHINA BUSINESS  
CIRCLES**

China Business Circles is a cross-industry forum and community for managers operating in China. As a new initiative by PTL Group launched in early 2020, CBC was created for managers from a variety of industries to connect, share work-related experiences, learn and consult with peers.

Our members work for international SMEs active in the Chinese market, while the majority are engaged in different technology fields. CBC's goal is to keep our members informed and up-to-date with new policies and regulations in China, host relevant events and create a trusted, professional platform to support their work.

# China Business Circles Activity

Five active Circles:

- China logistics circle
- China finance circle
- China HR circle
- China BD circle
- China partners network (service providers in China)
