About Alpha Omega

Founded in 1993, Alpha Omega is a world-leading medical device company, specializing in neurosurgery and neuroscience. The company offers solutions for enhancing and simplifying Deep Brain Stimulation (DBS), by implementing sophisticated software and hardware for brain mapping and navigation.

Alpha Omega in China

Obtaining the CFDA Certificate for NeuroOmega is another significant milestone for Alpha Omega, that has already entered the Chinese market with NeuroNav (Compact MER solution) and established a genuine connection with Neurosurgeons and Neuroscientist communities. This is a colossal step towards Alpha Omega's growth in the China market.
