PTL Group's new office in Beijing at DayDayUp

PTL Group continues to grow and develop its services to international companies in the Chinese market. Recently, we opened another office in Beijing at **DayDayUp**, with the goal of streamlining the service to our already existing customers.

Among our customers who have already settled in, you can find the companies **InnerActive**, **Fyber**, **StartApp**, **Display**, **GeoEdge** and more, so we can already talk about a significant group of interesting companies.

DayDayUp has become Beijing's most popular office complex among foreign young innovative high-tech companies. Some of them joined us at the launching event.
